Voting Faculty (118)

Voting privileges at faculty meetings are limited to fulltime faculty (those whose teaching appointments are not contracted on a course-by-course or adjunct basis), and faculty who direct academic programs that house one or more courses of study or courses that are required in the undergraduate program. Fulltime faculty with temporary administrative appointments retain their vote. By convention, the President and VPAA do not vote at faculty meetings and therefore are not included in the quorum count.
