

“I can still envision every street and every route I took to get to my favorite restaurants and areas within the city. I can truly say that I fell in love with this city and I will forever consider it to be a second home to me.”

Victoria Bowler

Burgos, Spain

Spring Semester

“I traveled to Portugal, Germany, Belgium, Denmark, United Kingdom, Czech Republic, Italy, Ireland, France, and of course around Northern Spain. The accessibility to travel in Europe made seeing all of these countries completely worth the time, exhaustion, and money.”

Deadlines: October 1 for spring term
March 1 for fall or full-year

What academic opportunities did you have while abroad?
The University of Burgos is different learning experience than universities in the United States. While studying in Spain, I took four courses all in Spanish. Since I was in Spain I decided to focus on, I took 17th Century Spanish Literature, Spanish Film and Literature, Contemporary Art History, and Cultural Anthropology, two of which I transferred back as Spanish credits. These courses were rigorous and my education consisted of analyzing Spanish poetry, literature, and film, expended my knowledge of artistic movements, and bettered my understanding of the evolution of world cultures and societies.

Favorite food/drink item you had abroad?

I can say that my favorite restaurant was this small place by the Cathedral, Gaía. While it was by no means a traditional Spanish restaurant because it was a vegan café, it took traditional dishes and made them vegetarian and vegan friendly. I am neither a vegetarian nor a vegan; however, the food was absolutely some of the most well prepared food I have ever eaten.

ADVICE TO STUDENTS

CONTEMPLATING GOING ABROAD:

“If you are considering studying abroad, do not even second guess it. It is such a rewarding experience. Advice I would give would be, try everything you can whether that be food, travel, or talking with locals. By stepping out of your comfort zone, you find out so much about yourself and the experience is worth every second.”
