

# Insurance

All students studying abroad are required to obtain the College's international health insurance which is administered through Cultural Insurance Services International (CISI). The current cost of this insurance is \$41 per each month you are abroad. For full insurance coverage details (including claim form), please contact the [Office of Study Abroad](#).

Even though you will be obtaining international health insurance, please keep in mind that it is recommended that your home medical insurance coverage SHOULD always remain in place while abroad.
