

W&J's Role in Campus Safety

Washington & Jefferson is committed to the safety of our students, faculty and staff. We have instituted the following procedures and technologies:

- We have 24-hour card access to our residential buildings
- Emergency call boxes across campus
- 24/7 escort system and security cameras
- W&J has installed and maintains exterior lighting around all of its buildings, as well as additional sidewalk and street lighting.
- While maintaining an attractive campus, ground crews keep shrubs and hedges low for safety reasons.
- On any normal workday, there are scores of W&J support personnel whose jobs include providing inspection of the entire campus and its buildings to discover and correct health, safety and maintenance problems. They work in addition to W&J Security Officers and others who tour campus to report safety-related problems to Facility Services, which responds to correct these problems promptly.
- As part of their duties, residence life staff members continuously report security and maintenance matters. Emergency maintenance services are available 24 hours a day.
- W&J also conducts a monthly Safety Committee Meeting which provides guidance and direction to students, faculty and staff at the College. The [Safety Committee](#) identifies hazards and risks, recommends appropriate action to ensure safe conditions, and assists the College in maintaining regulatory compliance.
